

TECH RANGE: TECH BIN - APTB20

Product Overview

A Plus Plastics range of small part bins branded Tech Bins provide a solution to storing various sized items in an efficient manner allowing for better access and stock keeping control.

Our range of trays are manufactured from polypropylene with 20% Talc included for improved strength. Our bins and trays have been designed and manufactured to be lightweight and durable.

The range provides a variety of bins and trays that can be used in many different environments to safely store and organise everyday items in the work place.

Dividers are also available with our Tech Bins to further maximise the efficiency in storing of items in the workplace, further enhancing accessibility and control.
